If you are unable to log into the Clan MacLaren website and are using Internet Explorer (IE), you may have Privacy settings that are blocking the site.
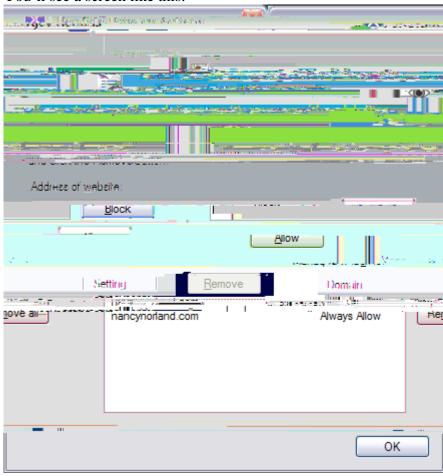

Try adding 2 domain names to your IE "Managed Websites" list using these steps:

- Click on **Tools** in the Internet Explorer Menu bar
- Then select "**Internet Options**"
- Then select "**Privacy**" tab (the settings here should be **MEDIUM**)
- Then click on the "**Sites**" button

You'll see a screen like this:

If you do not see "**clanmaclarenna.org**" and "**nancynorland.com**" in the Managed Websites box, you will need to add them:

clanmaclarenna.org
